Washington County Hazard Mitigation Plan Update

Washington County is reviewing and updating the existing Washington County Multi-Jurisdictional Hazard Mitigation Plan. The current plan is available for review and comment at any Washington County Library and on the Washington County Emergency Management Agency website at www.washingtongov.org. The public is encouraged to review the plan and complete the public comment form available online and at the libraries.

Mitigation is not a response to emergencies like floods and wildfires, but rather is a jurisdiction's strategy for preventing or significantly reducing the impact of such hazards prior to their occurrence. This planning effort is being conducted in accordance with the Disaster Mitigation Act of 2000 (DMA2K), which requires all local, county, tribal and state governments to have a FEMA approved hazard mitigation plan in order to be eligible for federal disaster mitigation funds.

A public meeting will be held Wednesday, March 16, 2016 from 1:30 PM to 2:30 PM at the EMA office located at 204 Davis Avenue, Suite C in Marietta. For more information contact the EMA office at 740-373-5613.
