

❖ **Introduction:**

Section 111.1 Ohio Building Code states that no building or structure, in whole or in part, shall be used or occupied until the building official has issued an approval in the form of a certificate of occupancy. The certificate of occupancy shall indicate the conditions under which the building shall be used. The building owner shall only use the structure in compliance with the certificate of occupancy and any stated conditions. The structure and all approved building service equipment shall be maintained in accordance with the approval. When a building or structure is entitled thereto, the building official shall issue a certificate of occupancy provided there are not violations of law or orders of the building official pending or as permitted in this section. Please note that when an application for plan approval for a new building construction, alteration, addition, or change of occupancy is filed, a certificate of use and occupancy will be issued automatically at the completion of all required inspections in accordance with section 109 Ohio Building Code. (The permit applicant does not need to submit this application form. However, if the applicant wishes to occupy a portion of building prior to the completion of the entire proposed and approved scope of work, please follow the procedures for PARTIAL OCCUPANCY below.)

- **PARTIAL OCCUPANCY:** Application for occupancy of a portion of building prior to the completion of the entire building construction and/or alteration can be issued provided that the building official determines that the portion requested can be safely occupied in accordance with section 111.1.4 Ohio Building Code.
